MORE RUMORS REGARDING CONCERN

Hartford Report Lays McCrum-Howell Company Trouble to Large Expenditures For Vacuum Cleaner Monopoly-Alleged Crooked Dealings on Sales in Chicago May Be Investigated.

F. Leon Putchins of Norwich was the guest of his mother, Mrs. Agnes Hutchins, in Greene, R. L. early this Of the seven millions of McCrum-Howell stock which has been author-ized, a large amount has been placed in Harriford and vicinity. Some esti-Mr. and Mrs. James Royle and two children of Baltic were recent guests of Mr. and Mrs. Thomas Marsland at Plainfield. mates of this amount are in excess of a quarter of a million of dollars, says the Hartford Times.

the Hartford Times,

The shares of the company have been looked upon as an investment. Instances are known where women, having money invested in high-class local securities in Hartford, have sold them in order to put their money into this stock at \$100 per share.

The troubles of the McCrum-Howell enterprises are atributed by those who are sequainted with the company's affairs very largely to the attenue of Patriotic societies will celebrate on April 23 the 25sth anniversary of the granting of Connecticut's charter.

Miss Stoebier of Norwich and Miss Gladys Jacques of Jewett City were guests of Miss Evelyn Salisbury in Mccsup recently. Although the temperature seems high in places about the county ice from is inches has been stered the present week.

enterprises are atributed by those who are acquainted with the company's affairs very largely to the attempt of Mr. McCrum to establish a monopoly of the business of manufacturing vaccus: cleaning outfits, through the control of certain patents, of which the most important are known as the McKinny patents. McKenny was a New Jersey plumber who developed a number of patents on the tools used in sucking the dust from rugs and carpets, and he succeeded in forming a company in New York, with a large capitalization and a number of very wealthy men on the board of directors. The late L. C. Wer, president of the Adams Express company, was The Bass Clef club of Norwich, C. D. Geer, director, is to assist at a concert in the town hall at Central wich Motorcycle club Friday evening. Orders have been issued by the post-master general establishing postal sav-inge banks at Eagleville and Essex, to take effect April 8.

Rev. Mr. Ayers, who supplies the Baptist church in Lebanon, being in Washington, D. C., William Crawford of Baltic will preach for him Sunday. wealthy men on the board of directors. The late L. C. Weir, president of the Adams Express company, was the first president of the company, which opened offices on Fifth avenue in New York and succeeded in obtaining contracts to equip many large buildings with pipes and machinery for vacuum cleanins. The Singer building, prior to the construction of its high tower, was the principal exhibition place of the McKinny company. The Belmont hotel in Forty-second street, the White House in Washington, the Travelers building in Hartford and a good many other large structures were equipped, but the company paid no dividends. McKenny, it is reported, secured a handsome fortune through a salary of 115,000 a year, and when the New York company finally failed he was able to continue in the business in New Jersey.

Bought Up McKenny Patents.

It was some time subsequent to the failure of the company that Mr. McCrum conceived the idea of using Alfred Stough is registered at the Del Hoff. He is now located in Plainville, Conn., but will spend a few days here. His many friends are always pleased to see him. Mr. and Mrs. W. J. Hunter have an-nounced the engagement of their daughter, Elizabeth Ethel, to Freder-ick J. Langenbach, Jr., both of this city. The wedding is to be in June. came about a month ago to his home in Norwich Town, where he has a fine farm. Now he has resolved to drop his profession and devote himself to his farming and poultry raising.

Miss Lucie Douglass of Williman-tic, formerly of this city, resigns her position with Dr. D. E. Taylor this week, Miss Douglass is to accept a position as buyer in the art depart-ment with the Gamble-Desmond Co. of New Haven. It was some time subsequent to the failure of the company that Mr. McCrum conceived the idea of using the McKenny patents as the basis for a combine which should control the vacuum cleaning business in the United States. By this time there were a number of other strong concerns in the field, the leading ones being the Spencer Turbine Cleaner company in Hartford and the Stur-THE EVENING SCHOOL Conducted for 77 Evenings with an Average Attendance of About 40.N being the Spencer Turbine Cleaner company in Hartford and the Stur-levant Blower company of Boston, which is the property of Governor E.
N. Foss and does a business of over
\$2,000,000 a year in air-blowing and
air-exhausting apparatus, steameconomisers, etc. There were also
concerns in St. Louis and Milwaukee nights under the direction of Principal J. F. Lucey, the evening school in the city hall closed Friday night. Only In the list of applications for appointment as teachers, received by the New Lendon school board at its meeting Thursday night, were the names of Miss Laura P. Young of Norwich, and Miss Mary Dunham of East Hampton.

In the list of applications for appointment as teachers, received by the been attending for three winters.

The total registration was about 200 and there were no meritorious pupils as to attendance. The attendance varied nightly. The largest any night was 58, while 40 was about the average. About 20 could not speak Engage. About 20 could not speak Engage. a few were present because of the storm, but there has been an untold which had developed vacuum cleaning systems, with various forms of air suction, air blast and steam blast. The McKenny concern never built any machines for creating a vacuum, but used for this purpose air-pumps of the piston type, which it bought from the established manufacturers of such

Law Suits. McCrum-Howell company out the Wisconsin vacuum bought out the Wisconsin vacuum cleaning concern and some others and sued other companies using the Mcsued other companies using the Mc-Kenny patents on cleaning tools. The companies that were sued naturally pooled their defense and there re-suited a very expensive patent litiga-tion, and also an exceedingly sharp and costly contest for contracts to equip big office buildings and public buildings with suction outfits. The McCrum-Howell company was able to secure the contract for the new Hart-ford National bank building, in spite of the fact that the Spencer Turbine of the fact that the Spencer Turbine cleaning apparatus, made in Hartford, is known to be a good system, having been installed in the big office building which replaced the Fifth avenue hotel in New York. It has also been adopted for the great 55 story Woolworth building on Broadway, now in process of construction. Proof was discovered of the use of cleaning tools of the McKenny type prior to the ap-ODD FELLOWS WHIST AND DANCE In Odd Fellows' hall on Friday evening, under the joint auspices of Uncas lodge, No. 11, and Shetucket lodge, No. 12, and Shetucket lodge, No. 12, and Shetucket lodge, No. 13, and Shetucket lodge, No. 14, and Shetucket lodge, No. 16, and Hyman Cooper of Norwich.

It is stated, says the New London Globe, that Miss Alice Sherman, formerly bookickeeper for Hirsch & Co., has brought suit against Lewis Morgan for breach of promise. Mr. Morgan is employed at Hariford and Miss Sherman resides in New London.

Postmaster Caruthers states that Norwich postoffice and tothing about the and tothing about the same and the of the McKenny type prior to the ap-plication for the McKenny patents, and the result has been that after an expenditures of over three-quarters of a million of dollars in this effort to build up a monopoly in vacuum cleaning. Messrs. McCrum and Howell are now in the hands of a receiver, and have failed in their purpose to establish control of the manufacture and sale of vacuum cleaners.

In this case the patent laws of the

in this case the patent laws of the country have proved a delusion and a snare to investors, and the attempt to create a patent monopoly has been as unsuccessful as was the effort to con-trol the manufacture of vehicles propelled by petroleum motors by means of the Selden patent. In each case, however, the original patentee reaped a fortune, which proves that it is not always the so-called inventor who gets some new mechanical de-

favors of Uncie Sam coming direct from the congressman and senator to those who may care to apply for them.

Friendly Proceeding.

The receivership proceedings, he explained, were part of a friendly programme, tending toward a reorganization of the corporation. For several days the firm of George H. Burr & Co. of No. 43 Exchange place has had Co. of No. 43 Exchange place has had accountants examining into the affairs of the company, with the result that an agreement was reached that receivership proceedings should be started and the affairs of the company restablished upon a stable basis.

Judge Helt of the federal district court late yesterday appointed Walter D. Upderraft and Boward R. Stettinius anciliary receivers for the assets in

anciliary receivers for the assets in this city under a bond of \$5,000. They had previously been appointed receivers at Philadelphia as well as Chicago. It is said the volume of business for the last year has been slightly ahead of the year ended April 1, 1911, when it was \$2,700,000.

There is outstanding about \$1,800,000 in commercial Barner in the hards of

n commercial paper in the hands of many parties, maturing within the next four months, of which \$200,000 matures before March 31. The company has quick assets in excess of its commercial paper, but cannot turn these assets into money to meet obligations.

was later changed to the Kellogg, McCrum, Howell company, and the capital stock was increased to \$1,500,000

On April 1, 1996, the name was changed to the McCrum-Howell company. In 1999 the capital stock was increased to \$3,000,000, and in October, 1910, was again increased to \$7,000,000. Lloyd C. Crum is president and George D. Howell vice president.
The company has absorbed various concerns in other citles and has es-tablished many branches,

"WASH" SALES.

Investigation of Alleged Crooked Manipulation of Company's Shares.

Chicago, March 15.—Investigation of alleged crooked manipulation of shares of the McCrum-Howell company loomed up today as the latest possibility with which persons connected with the so-called vacuum claner trust were confronted. The inquiry probably will be made into charges that two-thirds than in February and the confronted of the Chicago, March 15.-Invesigation be made into charges that two-thirds of the dealings in the McCrum-How-ell issues up to one month ago were fictitious sales, in which no checks or stock certificates changed hands, it was asserted today that "wash" sales were perpetrated for the purpose of making the stock appear safe as columning the stock appear and six less than in February of last years and stock appear and samples are safe as columning the stock appear and samples are safe as columning the stock appear and samples are samples as the samples are samples a

The storm did not keep away all the members of the Arcanum club Friday evening, for there were about 60 at the spread served following the whist. This had been prepared by McDougald

This had been prepared by McDougald whose chowder seemed to have an unusually enticing flavor. There were also celery, crullers, cheese, coffee, ginger ale and cigars.

There were nine tables of whist players and when play stopped about ten o'clock it was found that Frank-H, Foss had won with the blue scorers paying 57. His pulse was a clock ers, naving 57. His prize was a clock in a leather case. For first on the white scorers with 53 Isaac S. Jones received cards with chips. The entertainment committee of the

club was responsible for the enjoyable evening, the members being Louis R. Porteous, George A. Keppler and W. L. Stearns,

BOARD OF TRADE MEETING POSTPONED

Few Present and Matters Went Over Until Monday Night at Buckingham Memorial.

There were but about a dozen in town hall Friday evening to attend the board of trade meeting, the storm keeping muny away. As several important matters were to come up it was decided to postpone the meeting until rext Monday evening at Buckingham Memorial. President Haviland presided and it was on motion of W. B. Young that adjournment was

There was to have been a report from the committee on the changing of site of the tuberculosis sanatorium and other committees had reports to make. It is probable that the board of trade will do nothing further concerning the sanatorium, said the president at the close of the meeting. If anything fur-ther is done it will probably be through individuals.

XENS' SHAMROCK PARTY.

NORWICH DIDN'T SUFFER GREATLY FROM STORM.

Washout at Occum on Trolley Line-Some Anxiety as to the Dams Along the Streams.

The storm of Friday was one of unusual severity the rain coming in tor fents while late in the afternoon it was ccompanied by a high wind which threstened to do much damage but it was not learned that much damage

was not learned that much damage was done in this vicinity although many tree limbs scattered about show that it had its effect.

The rain amounted to two inches er more having measured 1.56 in the middle of the afternoon. Fairview reservoir gained three inches by noon being 90 inches below highwater mark and a gain of several more will result before the full benefit is received. The Shetucket river was high and three was a strong current. In the Yantic it was up under the Cheisea Boat club. Many took occasion to have a look at the Greeneville dam which is shedding quantities of water and making a pretty sight. Owners of dams along the river have been giving them attention and there has been some anxiety over the large volume of water coming down stream. At the Uncas Power dam it was found that they anxiety over the large volume of water coming down stream. At the Uncas Fower dam it was found that they were taking care of it airight and the same was reported at Balile though there is a big body of water back of both of them. The usual watchers were at the Greeneville dam at high water and the mills along the stream were obliged to give up the water of their water wheels because of backwater. This was so at the Hubbard Paper mill and the Bleachery.

water. This was so at the Hubbard Paper mill and the Bleachery.
The wires were well blown about by the storm and in some sections the electric lights were out for a portion of the evening. After eight o'cleck however, the rain stopped and the wind died out making a peaceful night in contrast with the aftraoon. Washout at Occum

Washout at Occum.

Friday night's heavy rain caused a washout on the trolley line at Occum hill about 7 o'clock, the rails and ties being guilled clear for a distance of several hundred feet, and passengers had to be transferred around that point all the evening. This made the schedule to the north about half an hour late before the night was through. The work car was sent to with a load. The work car was sent up with a load of des about 19,30 and it was expected to have the washout filled in and the road in running order there by this

Captain Smith Broke Arm. One of the worst wind and rain storms of years passed over New London Friday, seriously interfering with traffic on the ricer. The ferry-boat when it was making its landing. was nearly from the water by a par-ticularly strong gust, and Capt. Rob-ert Smith had an arm fractured by being struck by the wheel in the pilot house. Roads were badly washed.

Freight Car Top Off. The heavy wind storm of the late afternoon blew off the top of a freight car standing on a siding at Mystic, directly in front of the Merchants Limited express train. The engine struck the obstruction, but allowed down, escaping harm.
